

HSBC Global Investment Funds

ECONOMIC SCALE JAPAN EQUITY

Monthly report 30 November 2021 | Share class PD

Investment objective

The Fund aims to provide long term capital growth and income by investing in a portfolio of Japanese shares.

Investment strategy

In normal market conditions, the Fund will invest at least 90% of its assets in shares (or securities similar to shares) of companies of any size that are based in, or carry out the larger part of their business activities in, Japan. The Fund's investment process identifies and invests in companies according to their economic scale, measured by their contribution to Gross National Product. This is also referred to as Value Added - the difference between a company's outputs and inputs. The Fund may invest up to 10% in Real Estate Investment Trusts, and may also invest up to 10% of its assets in other funds, including HSBC funds. See the Prospectus for a full description of the investment objectives and derivative usage.

Main risks

- Please remember that the value of investments, and any income received from them, can fall as well as rise, is not guaranteed and you may not get back the amount you invested.
- The value of investible securities can change over time due to a wide variety of factors, including but not limited to: political and economic news, government policy, changes in demographics, cultures and populations, natural or human-caused disasters etc.
- Derivatives may be used by the Fund, and these can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.
