The Fund may invest up to 20% in non-investment grade bonds and up to 20% in bonds issued in emerging markets. The Fund may invest up to 10% in bonds issued by any single government issuer with a non-investment grade rating. Main risks

- Please remember that the value of investments, and any income received from them, can fall as well as rise, is not guaranteed and you may not get back the amount you invested.
- The Fund invests in bonds whose value generally falls when interest rates rise. This risk is typically greater the longer the maturity of a bond investment and the higher its credit quality. The issuers of certain bonds, could become unwilling or unable to make payments on their bonds and default. Bonds that are in default may become hard to sell or worthless.
- The Fund may invest in Emerging Markets, these markets are less established, and often more volatile, than developed markets and involve higher risks, particularly market, liquidity and currency risks.
